Which one is taller? \_\_\_\_\_

By how much? \_\_\_\_\_

Online reading & math for K-5

[www.k5learning.com](http://www.k5learning.com)

Once your child is confident with their place value to hundreds, they can start learning about ordering and rounding numbers. Here are the standards for the end of the year for Second Grade. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Number lines up to 100 (easier) Number Line Worksheets 3 Digits Top of Page Here you will find a range of printable mental math 2nd grade sheets for your child to enjoy. Partition a rectangle into rows and columns of the same size squares Partition a rectangle, square or circle into two, three or four equal shares. Describe the shares as halves, thirds, quarters or fourths Recognize that equal shares of identical whole need not have the same shape. These sheets are great for linking to a particular topic, or doing some math that relates to the time of year. Measure the lengths of objects twice using different units, such as inches and cm. Using these second grade math worksheets will help your child to: count by 1s 2s 5s 10s 50s and 100s; position numbers on a number line; understand place value up to 3 digits. There is a wider range of free money worksheets at the 2nd Grade Math Salamanders (see below). Top of Page All children like to play Math games, and you will find a good range of 2nd Grade Math Games here for your child to play and enjoy. Need to create your own long or short multiplication worksheets quickly and easily? Select the appropriate equipment and units for measuring. Add up to four 2-digit numbers Add and subtract within 1000 Add with different sets of objects in equal groups Represent arrays and equal groups as repeated addition and then multiplication equations. All you need to do is to set your number size and let the generator do the rest! The following worksheets involve using the 2nd Grade Math skills of multiplying, and solving multiplication problems. Second Grade Mental Math Worksheets Top of Page Using these second grade math worksheets will help your child to: learn their addition facts to 20+20 learn how to solve addition sums where one of the addends is missing, but the total is given; learn to add numbers to 999 in columns. Using these second grade math worksheets will help your child to: read quarter past and quarter to times; convert analogue to digital times; draw clock hands in the correct place for quarter past and quarter to. Top of Page Using these sheets will help your child to: understand what a half is; shade in half of a shape; find different numbers involving 'halves' on a number line; find half of different numbers up to 20. Using the sheets will help your child to: apply their addition, subtraction, and multiplication skills; apply their knowledge of rounding and place value; solve a range of 'real life' problems. Come to our friendly 2nd grade math help page! Take a look at our 2nd Grade Math Salamanders website. Some of the charts are partially filled to help your child learn their place value. Using these second grade math worksheets will help your child learn to: understand division as repeated subtraction or sharing; understand different models of division; learn how multiplication and division are related to each other. If you can't find what you are looking for, try searching the site using the Google search box at the top of each page. Here you will find our selection of free printable 2nd Grade math practice sheets, for your child will enjoy. adding and subtracting hours from different times. Using the link below will open the 2nd grade Math Salamanders website in a new browser window. Symmetry Worksheets - Block Symmetry Top of Page These sheets involve reading scales going up in ones, fives, tens and hundreds to find the length, weight or liquid capacity. Looking for some supportive advice and help? Top of Page The following worksheets involve using the Second Grade Math skills of subtracting numbers, and solving subtraction problems. Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Draw a simple picture graph or bar graph to represent data with up to four categories Identify and name a range of 2D and 3D shapes. These sheets involve counting and recording tallies. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. Top of Page The following worksheets involve using the 2nd Grade Math skills of dividing, and solving division problems. 2nd Grade Measurement Worksheets The following worksheets involve counting different amounts of money in pennies, nickels, dimes and quarters. Using these puzzles will help your child to: learn their addition facts to 20+20; learn and practice subtraction facts to 20; practice multiplying up to 5x5; develop thinking and reasoning skills; develop perseverance. These sheets are aimed at 3rd graders. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. Draw missing bars on a bar graph to the correct height. Identify different types of angles and find them on 2D shapes. Here you will find a range of Free Printable Number Charts for 1st and 2nd Grade. Begin to learn multiplication facts up to 5x5. Solve word problems involving money and use the \$ and ¢ symbols appropriately. Use the information in a bar graph to add data into a table. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Top of Page Here is our selection of tally chart worksheets for 1st and 2nd graders. Know and use place value to 3 digits. Our Second Grade Math Games Ebook contains all of our fun maths games, complete with instructions and resources. Using these sheets will help children to consolidate their counting as well as learning to read a simple scale. Second Grade Geometry Worksheets Using these sheets will help your child to: learn how to reflect simple shapes in a horizontal or vertical mirror line; learn how to reflect simple shapes in 2 mirror lines. Most of the sheets contain 'real-life' problems related to animal facts. Below are our selection of Place Value, Ordering and Rounding Worksheets Using these second grade math worksheets will help your child to: learn to count by hundreds, tens, fives, twos and ones; learn their place value to Hundreds; order numbers to 999. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Money Worksheets UK Money Worksheets Money Worksheets UK Coins Hub Page Printable Money Flashcards Kids Counting Money Dominoes Here are our collection of clock worksheets for 2nd grade. These printable charts will help your child learn to read and write numbers. Identify the faces of 3D shapes: squares, triangles, hexagons, rectangles. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. Recognize and draw shapes with specific attributes: number of angles, sides, faces, corners, etc. This ebooklet is available in our store - use the link below to find out more! Top of Page We have started creating sets of seasonal worksheets for each grade. Top of Page At a Second Grade level, children are introduced to a wider range of 2d and 3d shapes, and start to learn to reflect, flip and rotate shapes. learn to count up to \$10 in coins and dollar bills. A great way to revise topics, or use as a weekly math test or math quiz! Using the link below will open the 2nd Grade Math Salamanders website in a new browser window. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? Do you want to support your child with their math work and not know where to start? Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. The following games involve different Second Grade Math activities which you and your child can enjoy together. They are able to classify and sort two-dimensional shapes using different criteria, and they learn the properties of three-dimensional shapes. These sheets will open in a new tab. The following worksheets will help your child to: Identify and name a range of 2d and 3d shapes; Draw 2d shapes; Know some of the properties of 2d shapes. Top of Page Here are a range of problems solving sheets for 2nd graders. Welcome to our Second Grade Math Worksheets area. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. The graded worksheets here will help your child learn to compare numbers to 999, and round numbers to the nearest 10. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. On this site you will find a wider selection of 2nd grade math worksheet and free math resources. This page contains links to other Math webpages where you will find a range of activities and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Top of Page You can create your own addition and subtraction worksheets with our random generator. Within each section, the sheets are carefully graded with the easiest sheets first. The following webpages involve correctly placing numbers on a number line. Tell and write the time to the nearest 5 minutes Know the relationships involving time units: seconds, minutes, hours, days, weeks, months, years. On this page you will find link to our range of math worksheets for 2nd grade. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. The puzzles will help your child practice and apply their addition, subtraction and multiplication facts as well as developing their thinking and reasoning skills in a fun and engaging way. Use addition and subtraction facts within 100 to solve a range of one- and two-step word problems. Come and take a look at our multiplication pages, or money flashcards. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. 2nd Grade Math Salamanders Website How to Print or Save these sheets Need help with printing or saving?
